

Hello,
I greatly benefit from listening to XM Satellite Radio and its traffic and weather channels.

Every morning, as I get ready for my commute from San Mateo to San Jose, CA, I tune in to the XM satellite radio station that provides traffic reports for the San Francisco Bay Area. Many times I have saved hours of frustrating traffic simply by listening to XM radio traffic channel and changing my route.

XM Satellite radio provides variety and quality that are not available on regular radio stations. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Emmanuel Huna
San Mateo, CA
